Toulouse

SKILLS

- Programming (Python, Ada, SQL)
- Working under pressure
- Communication & Pedagogy
- Teamwork
- Problem Solving
- Event managing

LANGUAGES

- English
- French
- Arabic

ABOUT ME

First-year Computer Science Engineering student at ENSEEIHT and former MP preparatory class student. Passionate about Data, Finance, and Cybersecurity. As a former Judo Champion of Morocco, I am rigorous, disciplined, and a strong team player. I am seeking opportunities to apply my analytical and technical skills (Python, Ada, SQL) to innovative projects.

EXPERIENCES & PROJECTS

Optimization Project (TIPE) | 2024 - 2026

- Physical principles of MRI and its mathematical modeling.
- Applied mathematics in computer science: algorithmic image reconstruction.
- Optimization of MRI image reconstruction under physical constraints.
- Skills: analysis, modeling, optimization, and rigor.

Participant - Moroccan Mathematics Championship (MMC) | Summer 2026

- National individual mathematics competition.
- Solving complex problems under high time pressure.
- Skills: Logic, Working under pressure.

Participant - Moroccan Tournament of Young Mathematicians (MTYM) | 2024

- International team mathematics competition.
- Collaborative problem-solving and oral presentation of results to a jury.
- Skills: Teamwork, Communication, Research

PROJECT & EVENT MANAGEMENT

- Organized a Basketball tournament and ensured the smooth running of the matches.
- Organization of a video game tournament: managing registrations, creating match brackets, and hosting the competition.
- Event project management, Logistics, Communication, and group facilitation.

EDUCATION

Engineering Degree | 2026 - Present
ENSEEIHT (INP Toulouse)

Preparatory Classes (MP track) | 2024 - 2026
Lycée Mohamed V

Scientific Baccalaureate (SMB option) | 2024
Lycée Mohamed V (with highest honors)
